Account Creation for NSF ACCESS Workshops
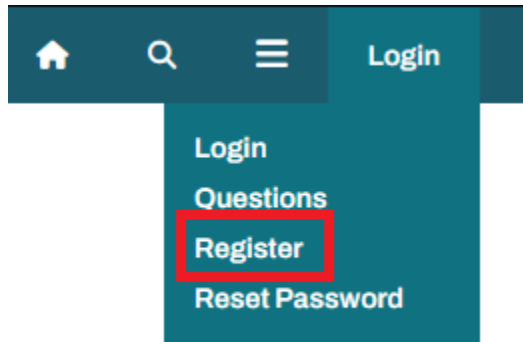

UCF Office of Research

Graduate and Research IT

December 2024
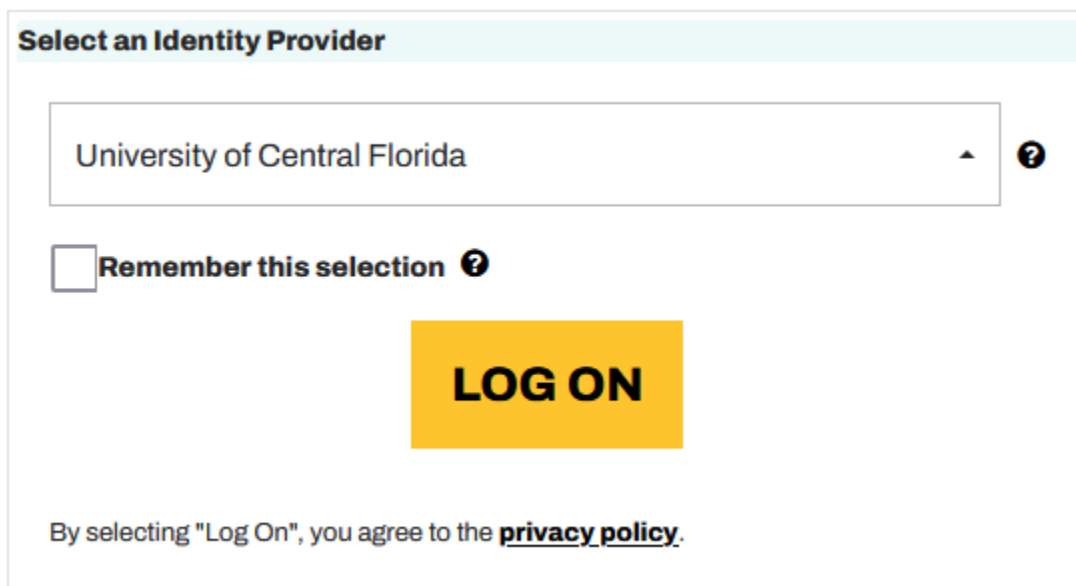

Navigate to https://access-ci.org/, and in the upper-right corner of the screen mouse over 'Login' to find 'Register'.

You will be led to https://operations.access-ci.org/identity/new-user. Important to consider, if you already have an XSEDE account (now ACCESS) then that identity will allow you to log in with the "ACCESS CI (XSEDE)" identity provider option.

Follow the steps for **Register with an existing identity**, which contains a link to https://identity.access-ci.org/new-user-federated.

Under **Select an Identity Provider** choose "University of Central Florida".

When you click "LOG ON" you will be taken to a login portal for UCF, where you will login with your UCF account, NID@ucf.edu. Complete this process and you'll have an NSF ACCESS account linked to your UCF identity.

As soon as you have created your account, please **notify Tom Maiden** at tmaiden@psc.edu (indicating ACCESS ID and which site you wish to attend) **and the RCI Facilitation** team (ResearchIT@ucf.edu).

For any additional support email: ResearchIT@ucf.edu.
