

Account Creation for NSF ACCESS

UCF Office of Research Cyberinfrastructure

November 2025

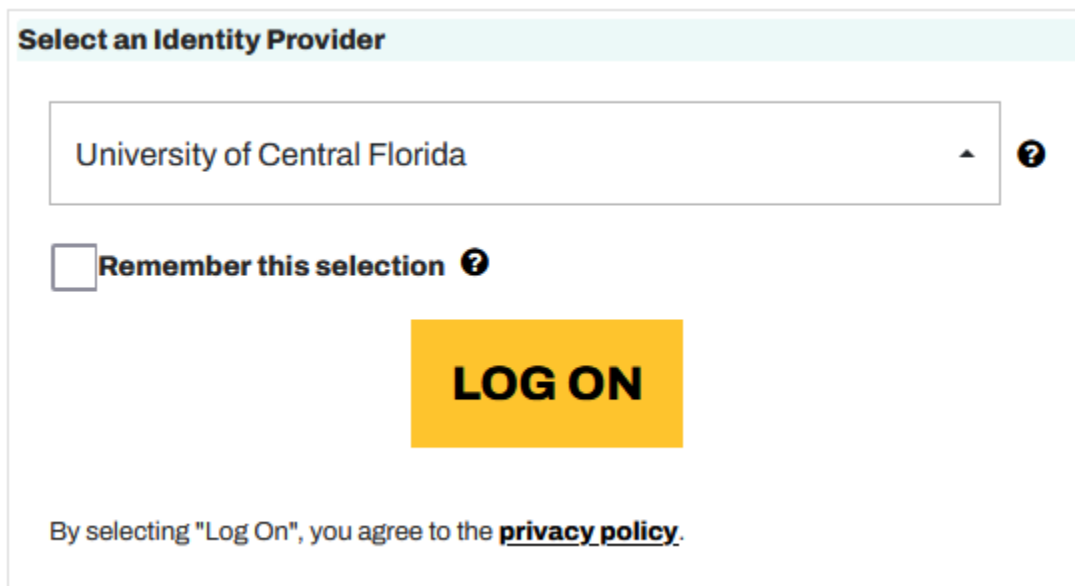

Navigate to <https://access-ci.org/>, and in the upper-right corner of the screen mouse over 'Login' to find 'Register'.

You will be led to <https://operations.access-ci.org/identity/new-user>. Important to consider, if you already have an XSEDE account (now ACCESS) then that identity will allow you to log in with the "ACCESS CI (XSEDE)" identity provider option.

Follow the steps for **Register with an existing identity**, which contains a link to <https://identity.access-ci.org/new-user-federated>.

Under **Select an Identity Provider** choose "University of Central Florida".

A screenshot of the 'Select an Identity Provider' form. The form has a light blue header with the title 'Select an Identity Provider'. Below the header is a dropdown menu with 'University of Central Florida' selected. To the right of the dropdown is a question mark icon. Below the dropdown is a checkbox labeled 'Remember this selection' with a question mark icon. In the center is a large yellow button with the text 'LOG ON'. At the bottom, there is a line of text: 'By selecting "Log On", you agree to the [privacy policy](#).'

When you click “LOG ON” you will be taken to a login portal for UCF, where you will login with your UCF account, NID@ucf.edu. Complete this process and you’ll have an NSF ACCESS account linked to your UCF identity.

Finally, navigate to <https://allocations.access-ci.org/profile>. As of Fall 2025, ACCESS requires users to fill out demographic information regarding the user’s academic status, country of residence, and citizenship. **Navigate to “Additional Information” in the profile link above** and fill out your institution, academic status, country of residence, and citizenship information.
